Husky™ 515 / 716 Air-Operated Diaphragm Pumps

515 – Acetal

515 – Polypropylene

515 – Kynar

716 – Aluminum

716 – 316 SST

- **515 – 1/2 in. non-metallic pumps in acetal, polypropylene, and kynar**
- **716 – 3/4 in. metal pumps in SST, aluminum**
- **No seals to leak or fail mean less downtime**
- **Clean, hands-off fluid handling**
- **Quiet running, less than 85 dB(A) with easy to use remote muffler capability for even lower noise levels**
- **High flow rates in a small portable package**

**Reliable
transfer pump
handles
a variety
of fluids**

Multiple Uses and Hard Working

The Husky 515/716 is a versatile pump, well suited for a variety of utility duties requiring operation up to 16 gpm (60 lpm) with light to medium viscosity fluids. This is an excellent pump for a variety of applications, including machine lube servicing, cleaning fluids and detergents, plating and dip tanks, water treatment, chemicals and other difficult fluids. Uses include drum evacuation, chemical injection, ceramic glaze supply, low viscosity printing inks and similar fluids. Because of its small size, the Husky 515/716 is compact, lightweight and easy to carry.

The Husky 515 (1/2 in. pump) is available in three models: acetal for solvents and flammables, polypropylene for acids and bases, and kynar for harsh chemicals and hot acids. The 716 (3/4 in. pump) is available in aluminum for oil, water, and most solvents, and stainless steel for those wanting an all metal pump with excellent corrosion and abrasion resistance.

Air Valve Design

The Husky 515/716 now features Graco's patented air valve design with the following advantages.

- Simple design with only 8 parts, accessed by unscrewing the top air inlet cover
- Lubricated air is not required
- Air valve operates with 25 psi (0.17 MPa, 1.7 bar) air or less
- Patented 1040 dual cup air valve design

Technical Specifications for Husky 515/716

Maximum working fluid pressure	100 psi (0.7 MPa, 7 bar)
Air pressure operating range	25-100 psi (0.18 to 0-7 MPa, 1.8 to 7 bar)
Maximum air consumption	28 scfm (0.672 m ³ /min.)
Maximum free flow delivery	
For 515	15 gpm (57 lpm)
For 716	16 gpm (61 lpm)
Maximum pump speed	400 cpm
Gallons (liters) per cycle	0.04 gallon (0.15 liter)
Maximum suction lift (water)	
Dry	15 ft. (4.5 m)
Wet	25 ft. (7.6 m)
Maximum size pumpable solids	3/32 in. (2.5 mm)
Sound power level (measured per ISO standard 9614-2)	
At 70 psig (0.48 MPa, 4.8 bar) at 50 cpm	77 dBa
At 100 psig (0.7 MPa, 7 bar) at maximum cpm	95 dBa
Sound pressure level (measured 1 meter from pump)	
At 70 psig (0.48 MPa, 4.8 bar) at 50 cpm	67 dBa
At 100 psig (0.7 MPa, 7 bar) at maximum cpm	85 dBa
Air inlet size	1/4 npt(f)
Air exhaust port size	3/8 npt(f)
Fluid inlet size	
For 515	1/2 and 3/4 npt(f) or bspt(f)
For 716	3/4 npt(f) or bspt(f)
Fluid outlet size	
For 515	1/2 and 3/4 npt(f) or bspt(f)
For 716	3/4 npt(f) or bspt(f)
Wetted parts (in addition to ball, seat, and diaphragm materials, which may vary by pump)	
Acetal pumps	groundable acetal, Teflon®
Polypropylene pumps	polypropylene, Teflon
Kynar pumps	Kynar, Teflon
Aluminum pumps	aluminum, SST, Teflon, zinc-plated steel
SST pumps	polypropylene, SST, polyester (labels), nickel-plated brass, epoxy-coated steel (feet)
Weight	
Acetal pumps	7.8 lbs. (3.5 kg)
Polypropylene pumps	6.5 lbs. (2.9 kg)
Kynar pumps	8.5 lbs. (3.9 kg)
Aluminum pumps	8.5 lbs. (3.9 kg)
SST pumps	18 lbs. (8.2 kg)
Instruction manual	308981

Kynar® is a registered trademark of Atochem North America, Incorporated.

Teflon® is a registered trademark of Du Pont.

Husky 515/716 Pump Performance

Fluid Pressure

Air Consumption

Key:
 — Fluid Outlet Pressure
 - - - - - Air Consumption

Air Pressures:
 A = at 100 psi (0.7 MPa, 7 bar)
 B = at 70 psi (0.48 MPa, 4.8 bar)
 C = at 40 psi (0.28 MPa, 2.8 bar)
 D = at 20 psi (0.14 MPa, 1.4 bar)

Kits for Husky 515/716

241405 Proximity Switch Kit

Includes the reed switch and magnet.

241406 Counter Kit

Includes the reed switch, magnet, battery-operated counter with mounting bracket.

241657 Air Valve Repair Kit

Split Manifold Kit for 515

- 241243 Polypropylene, top
- 241240 Polypropylene, bottom
- 241244 Acetal, top
- 241241 Acetal, bottom
- 241245 Kynar, top
- 241242 Kynar, bottom

238084 Evacuation Air Restrictor Kit

221094 Suction Kit

55 gallon (200 liter), bung mount, SST. For more information, see Husky Diaphragm Pump Suction Kits (Form No. 300-450).

221095 Pail Mount Kit

5 gallon (20 liter). Includes cover, suction tube and hardware.

241262 Duckbill Replacement Kit

Includes 4 valves and 4 spacers.

Air Motor Retrofit

Turn any existing 715 metal pump into the new 716 by buying an air motor Retrofit Kit.

241631 Air Motor Retrofit

241664 Remote-Controlled Air Motor Retrofit

Husky 515/716 Accessories

- 190246 Aluminum Manifold for Vertical Suction Port**
- 221169 Groundable Air Hose**
Max. working pressure: 300 psi (2.1 MPa, 21 bar).
1/2 in. ID x 10 ft. (3 m).
Coupled 1/2 npt(m) x 1/4 npt(m).
- 110146 Air Line Filter**
Max. working pressure: 300 psi (2.1 MPa, 21 bar).
1/4 npt(f). Reusable 20 micron filter with drain cock.
- 208536 Air Quick Connect Coupler** 1/4 npt(f)
- 169970 Air Quick Connect Nipple** 1/4 npt(m)
- 110147 Air Regulator** 1/4 npt(f) with cover

Groundable Fluid Hoses:

Max. working pressure: 500 psi (3.5 MPa, 35 bar). Nylon core, urethane cover, 3/4 in. ID, 3/4 npt(mbe) and SST fittings.

- 221170** 3 ft. (0.9 m)
221171 6 ft. (1.8 m)
221172 10 ft. (3.0 m)
221173 25 ft. (7.6 m)

- 110134 Fluid Pressure Relief Valve**
Venting pressure: 150 psi (1.05 MPa, 10.5 bar)
- 222011 Grounding Wire and Clamp**
Length: 25 ft. (7.6 m). 12 ga. (1.5 mm²)
- 224835 Wall Mounting Bracket**
- 195264 CycleFlo Batch Controller**
Programmable batch controller for solenoid-operated (D4xxxx) pumps. Controls cycle rate and number of strokes.
- 195265 CycleFlo II Cycle Controller**
Adjusts cycle rate only. For use with solenoid-operated pumps.

Surge Suppressors

Automatic Models

Polypropylene wetted bottom housing and non-wetted top housing
Weight: 9 lbs. (4.1 kg)

- 239096** with Buna-N bladder
239121 with Teflon® bellows
239122 with Viton® bladder

SST wetted bottom housing and non-wetted top housing
Weight: 16 lbs. (7.3 kg)

- 239095** with Buna-N bladder
239123 with Teflon® bellows
239124 with Viton® bladder

Acetal wetted bottom housing and non-wetted top housing
Weight: 9 lbs. (4.1 kg)

- 239094** with Buna-N bladder
239125 with Teflon® bellows

Adjustable Models

Polypropylene wetted bottom housing and non-wetted top housing
Weight: 9 lbs. (4.1 kg)

- 239091** with Buna-N bladder
239129 with Teflon® bellows
239130 with Viton® bladder

SST wetted bottom housing and non-wetted top housing
Weight: 16 lbs. (7.3 kg)

- 239090** with Buna-N bladder
239131 with Teflon® bellows
239132 with Viton® bladder

Acetal wetted bottom housing and non-wetted top housing
Weight: 9 lbs. (4.1 kg)

- 239089** with Buna-N bladder
239133 with Teflon® bellows

Aluminum wetted bottom housing and non-wetted top housing
Weight: 9 lbs. (4.1 kg)

- 224892** with Teflon® bellows
224893 with Buna-N bladder

SST wetted bottom housing and aluminum non-wetted top housing
Weight: 16 lbs. (7.3 kg)

- 224894** with Teflon® bellows
224895 with Buna-N bladder
